

C-300/N

C-300/N

Heavy duty gravity feed slicers Thanks to their new technical solutions like:

- High performance motor
- Gears in oil bath
- Built-in precision sharpener
- Turnable slice deflector for easy cleaning back of the knife
- High carbon steel (hard chromed) knives everybody can slice even large and heavy pieces without effort

Fan cooled motor. Continuous service. Gears and blade-holder flange run in their own reduction box, plunged into an oil bath, securing a noiseless, durable and trouble-free traction force.

Modern sharpener provided with a movable protection which covers the whole blade even in off position, according to the safety requirements.

Integrated blade sharpener for a perfect and constant grinding and trimming; it runs automatically.

Easy removable grinding wheel for the cleaning.

Removable internal blade cover.

Removable product holder to make the cleaning of the machine easier. In this situation the slice thickness control is positioned to 0 (zero) to avoid accidents against the blade. This kind of accidents can occur if the slice thickness plate is unwittingly open

Fixed external blade guard to protect the part of the blade which is not used for the cutting operation.

**FURTHER OPTIONS:**

- 8 - Portioner: digital monitoring of the portions
- 12 - SIS vegetable tube (only on standard carriage)
- 15 - Direct current motor 24 V
- 16 - Digital slice counter
- 17 - Stand for slicer
- 22 - S/S vegetable tube (only on standard carriage)
- 56 - Receding feet
- 57 - Higt feet
- 78 - Carriage with 2 adjustable fixing grips BO far slicers
- 81 - Adjustable fence for standard carriage
- 90 - Blade removal tool
- 97 - Teflon coating (gauge plate, blade, blade cover)
- 100 - Adjustable fence for standard carriage
- 108 - Teflon coated toothed blade from 0 mm 275 to 0 mm 300
- 109 - Teflon coated toothed blade from 0 mm 310 to 0 mm 350
- 112 - Slice holder
